PDVSA GAS ANACO: GAS Compression and Pumping Plants. (Anzoátegui and Monagas States - Venezuela). October 2003 to February 2004.

Company: PDVSA. With the following duties:

Perform **Audit and Evaluation of subcontractors** for the different Gas Compressor and Gas Flow Plants: Aguasay, Aguasay-Caro, Mata R, San Joaquin Booster, Santa Rosa and Zapato.

Support site Engineering and QC Inspectors during the activities of **Structural Steel erection, Piping and Mechanical Installation** for different Gas Production and flow lines spools; **Gas manifolds and pump racks; water tanks API650.**

Coordinate and performs inspection activities during **Tie-in** of new piping to existing gas piping systems. **(Hot tapping).**

Manage site Inspection at Gas Compression Plants and Gas Flow Stations.

Perform Welding Inspection, **WPS & PQR's**, Evaluation and Inspection of **Heat Treatments, welders' Qualification.**

Handling of Isometric and PID's drawings.

Witness of side **hydrostatics and pneumatic tests**, Flushing.

Support during **commissioning.**

Upgrade of crude oil facilities.

QC/QC Coordinator (Subcontractor).

OPERADORA CERRONEGRO CPF (Central Production Facilities) Construction Project. (State Monagas - Venezuela). May to August 2002.

Company: Servicios y Construcciones La Paz, Venezuela.

Working for OPERADORA CERRO NEGRO, a consortium between PDVSA (Venezuela), ExxonMobil (USA) and Veba Oel (Germany), with the following duties: Coordination of Inspection on the works related to the improvement of the Crude Oil Upgrade Plant and its Water line facilities. Activities performed during the early production phase. Include a Water Line (from a new water well).

Quality Specialist.

Company: Otepi Consultores, Venezuela. September 1997 to March 2003.

(Contract finished due to the Oil and Gas Strike rose in December 2002).

Working during this period to the Projects listed below:

EL PALITO REFINERY, Expansion Project:

Working for PDVSA, with the following duties:

Perform coordination of inspection in vendors manufacturing facilities for Pressure vessels (ASME Stamp), Spools fabrication and API 650 Tank.

HAMACA Project - AMERIVEN:

Working for PETROLERA AMERIVEN, consortium between PDVSA (Venezuela) ConocoPhillips (USA) and ChevronTexaco (USA), with the following duties:

Perform coordination of inspection in vendors manufacturing facilities (Pressure vessels) including management of Inspection activities at Germany and Colombia.

Supervision of inspection during the coating application (Wrapid tape Canusa) to line pipes (AINCO Facilities).

LASMO - Dacion field development Project:

Working for Foster Wheeler, with the following duties:

Perform inspection management and evaluation of local workshops and supplier facilities. Perform inspection of equipments and materials at local vendor's facilities.

SINCOR Project:

Working for SINCOR, consortium between PDVSA (Venezuela), Total (France) and Statoil (Norway), with the following duties:

Perform inspection Management and evaluation of local workshops and suppliers.
Perform inspection of equipments and materials at local vendor's facilities.

OCN Wellpads and CPF (Central Production Facilities) Construction Project. (State Monagas - Venezuela).

Working for OPERADORA CERRO NEGRO, a consortium between PDVSA (Venezuela), ExxonMobil (USA) and Veba Oel (Germany), with the following duties:
Inspection during the reception of materials and equipments in facilities warehouse.
Support to warehouse manager in updated Revision of Stock according to Construction Schedule.

Interface with procurement and Construction management teams.
